PRICE THREE CENTS.

Less Than 2% on \$2,365,935 Claims

Total Awards of \$30,290 on Claims Presented by Ulster County Residents for Ashokan Damage—\$18,500 for Glenierie Falls—Commission Throws Out Claims of Kingston Business Men.

Damage Commission No. 5, composed of William H. Murray of Troy, Andrew Sheridan of New York and Joseph J. McGrath of Poughkeepsie, who took testimony on claims of many residents of Ulster county for damages claimed either to real estate, or for damages to business or loss of business by reason of the acts of the city of New York in wiping out a large section of the county for the Ashokan reservoir, has filed its seventh separate report with the Ulster county clerk. The report is dated June 4.

Nearly all the cases were dismissed. Two claims, filed by James E. O'Neill and Matthias Burger, city experts, were withdrawn by the claimants.

The largest claim was that of John H. Sands for Glenierie Falls and adjacent property. The claim was for \$1,500,000. The award was \$18,500.

The next largest claim was filed by John L. Bigelow, as trustee of the Joseph B. Sheffield estate of Saugerties, for diversion of the waters of Esopus creek and real estate damage. The claim was for \$100,000; the award was \$7,000.

The total of the claims on which the commission reported at this time was \$2,365,935. Awards were made in only eleven cases, for a total of \$30,290, which is less than two per cent of the amount of the claims. Counsel fee recommended by the commission amounts to \$1,478.25, and expenses and disbursements of claimants were recommended by the commission for a total of \$2,860.

The name and residence of the claimants, nature of claim, amount of claim, and how disposed of, and name of attorney for claimants are as follows:

V. H. Hicks, Brown Station. Poultry business. Claim, \$1,000; Dismissed. No appearance by claimant.

Kingston's New Hotel Organized

Stockholders Decide to Incorporate Under Name of Kingston Community Hotel Corporation—Six Directors Chosen—\$10,000 Paid on Site.

At a preliminary organization meeting of subscribers to stock in Kingston's new community hotel, held at the Y. M. C. A. on Friday evening, steps were taken to incorporate under the name of the Kingston Community Hotel Corporation with a capital of \$500,000 in preferred stock, in shares of \$100 each, and a like number of shares of preferred stock of no par value. Over \$315,000 of the preferred stock was subscribed during the selling campaign and a number of subscriptions have been received since. One block of \$1,000 was sold this week to a visitor from the Pacific coast.

The meeting was attended by about 100 of the stockholders in person and there were a number of proxies, only those who had paid in the first installment due on their subscriptions being entitled to vote. President John H. Gregory of the Chamber of Commerce called the meeting to order and asked Judge Fowler to preside, as the judge was familiar with the formalities to be observed. After some discussion it was decided to incorporate as the Kingston Community Hotel Corporation and leave the determination of the name of the hotel to future action.

On motion of Herbert Carl it was decided to issue 5,000 shares of preferred stock of the par value of \$100 a share and 5,000 shares of common stock of no par value.

On motion of Mr. Gregory it was agreed that there be six directors elected now in order to organize and as a necessary step in the process of incorporation. A dozen names were presented and a vote taken by ballot, each voter casting one vote for each share of stock he represented. About 1,200 shares of stock were voted and the directors elected, on the first ballot, were Peter A. Black, Herbert Carl, John H. Gregory, Frank R. Powley, Arthur J. Burns and George Van Deusen Hutton. The tellers were Henry Klein and Eugene B. Carey.

It was announced that a payment of \$10,000 had already been made to Judge Severn B. Sharpe, for the site, and that the remaining \$50,000 would be due early in July. It was also stated that Judge Sharpe had subscribed to 50 shares of the stock.

The meeting then adjourned. The incorporation of the company will be proceeded with as rapidly as possible and in the meantime stock is on sale and may be subscribed for by applying to the Chamber of Commerce or to any of the directors of the Kingston Community Hotel Corporation. The more stock is sold the smaller will be the mortgage placed on the property.

The incorporators of the company will be proceeded with as rapidly as possible and in the meantime stock is on sale and may be subscribed for by applying to the Chamber of Commerce or to any of the directors of the Kingston Community Hotel Corporation. The more stock is sold the smaller will be the mortgage placed on the property.

Through Gates, Hit by Engine, Escape Injury

A Dodge touring car driven by William Klein of 20 West Union street was struck by a West Shore train last evening about 9:15 o'clock at the Saugerties road crossing when the car was driven past waiting cars and crashed through the gates.

In the car with the driver were Mrs. Carrie Klein, Mrs. Simmons and Miss E. Forbes. None of the occupants was injured, but the rear of the car was considerably damaged. At the time of the accident the gates were down and the driver of the Klein car was unable to stop. He passed a waiting Ford car and hit the gates, breaking them. As he entered upon the crossing he turned parallel with the approaching train and was struck a glancing blow by the left side of the engine.

Bus Line Route May Be Altered

P. S. C. Grants Permission To Kingston Cotekill Bus To Abandon Part of Original Route—Not to Interfere With Myers Line.

By Telegram to The Freeman. Albany, June 7.—In an order issued by the Public Service Commission Friday permission is given to Maurice Ghys and Joseph A. Lynch, operating a motor bus line between Kingston and Cotekill, Ulster county, to alter their route. The new route will leave Kingston by the state highway to Kalkopps Corners, and instead of leaving the state highway at Kalkopps Corners will continue along the village of Rosendale and thence to Cotekill and Blinewater. The part of the original route extending from Kalkopps Corners to Blinewater, running over a town road, will be abandoned.

At a hearing on the petition in Kingston April 4, it was brought out that the proposed route would be in competition with the line of Henry Myers, running from Kingston to Blinewater, between Kingston and Rosendale. There was found to be demand from residents along the Lawrenceville road between Rosendale and Cotekill for local service between these two sections, which could be furnished by the Ghys and Lynch line without interfering with the Myers line. The order of the commission, therefore, directs that the Ghys and Lynch line shall not carry passengers locally in either direction between any one point included between the intersection of the Lawrenceville and Beach roads and Kalkopps Corners and any point beyond Kalkopps Corners including the city of Kingston.

5 Months' Rainfall 19.21 Inches

Record Kept By Kingston Water Works Department Shows Heavy Fall This Year.

Considering the many showers this year it would appear that the rainfall had been extremely heavy but a comparison of the records kept by the Kingston Water Works Department show that for the first five months this year there was a rainfall of 19.21 inches. During the same period in 1923 the total rainfall was 17.59 inches.

The water board record for this year shows the following rainfall:

January	4.63 inches.
February	3.73 "
March	1.86 "
April	4.78 "
May	4.21 "

Total 19.21 inches.

In 1923 the records show:

January	7.25 inches.
February	2.14 "
March	3.94 "
April	1.60 "
May	2.66 "

Total 17.59 inches.

Japanese Cabinet Resigned Today

Enactment of Exclusion Law by the United States, One of the Causes—

By Telegram to The Freeman. Tokyo, June 7.—The Japanese cabinet, headed by Premier Kiyoura, resigned today. It had been in power since January 7.

Two main causes contributed to the retirement of the Kiyoura government.

1. Defeat of the political group supporting Premier Kiyoura in the general election May 10.

2. Enactment of the Japanese exclusion law by the United States and abrogation of the "gentlemen's agreements" between America and Japan.

Clinic Here Next Wednesday

P. S. C. Opinion In 8 Cent Fare

(Continued from Page One)

Although it appeared upon the hearing that the Colonial Division had up to that time been non-paying, the Commission denied the application but with the privilege to the company to renew it after the disposition of an application to be made for an increase in fares.

The company thereupon, in Case No. 7860, applied for permission to increase its passenger fares and for consent to put the proposed new tariffs in effect on short notice. An order was granted providing for seven cents cash fare and the sale of 16 tickets for one dollar. The order further provided that the fares so fixed should remain in effect until the further order of the Commission.

Present Case.

The railroad company claims that it has been steadily losing money since the order in the last case (Case No. 7860.) It has had considerable difficulty in financing itself and has never paid a dividend on its common stock dividends upon its preferred stock have not been paid regularly, some 24 per cent in dividends thereon being now cumulated. The capitalization consists of—

\$532,000 First Mortgage Bonds
\$300,000 Preferred Stock—4 per cent—Cumulative
\$200,000 Common Stock.

Power is purchased from the United Hudson Electric Corporation and delivered from that company's substation at Kingston. The evidence was that the average cost of power is about three cents per KWH.

The company presented six exhibits relating to its income, operating expenses, general balance sheets, valuation of property, and results of operation for the year 1923. Those appearing in opposition confined their case to the cross-examination of the company's witnesses.

Rate Base.

The railroad company claims a valuation of its property as of October 31, 1923, of \$719,523. (Exhibit 5.) It was stated that the basis of this valuation was actual cost as of the time the property was built. It appeared, however, that it was in fact based upon such a valuation made in 1919, and that no actual inventory and appraisal had been made since.

The accounts in this exhibit may be divided into four principal groups, as follows:

(a) Way and Structures	\$478,207
(b) Equipment	127,137
(c) Power Plant Buildings	10,073
(d) Related Intangibles	104,106

Total \$719,523

(c) The power plant buildings are not now used. Neither is there claim or proof here to justify their inclusion as property necessary for reserve or standby service.

(d) This group of capital accounts are said to have been estimated on an original cost basis. Such a basis is purely theoretical. Allowance for such items, under the circumstances of this case, should not exceed 15 per cent of the cost of physical property.

The cost of reproduction new of this property was said to be over \$1,000,000. But no one would reconstruct it as it now exists. Many of the improvements and wasteful results of the virtual duplication of lines and service still exist, and will undoubtedly continue, in view of the attitude of the city of Kingston toward the abandonment of any portion of the existing lines.

It may very properly be held that the company's valuation, claimed to be based on original cost, is fair and reasonable here, with the deductions from intangible capital accounts, and elimination of the power plant buildings.

	104,106	92,322

Total \$719,522

To the foregoing must be added working capital consisting of materials and supplies and working cash. This is fixed at \$24,000, about the average amount in this account as carried by the company.

Operating Results, 1923.

The cost of service per revenue passenger carried on the Colonial Division is undoubtedly the cause of the unsatisfactory operating results. This is rather clearly shown in the following table:

Statement of revenue passengers carried and car miles operated during the year 1923:

Revenue Passengers Carried:

Year Ended Kingston City Division Per Colonial Per Total System Per

Dec. 31, 1923 Division Cent Division Cent Cent

Five summer months 707,397 42.3 709,267 48.6 1,416,664 45.3

Colonial Division 1,458,439 46.6 317,002 61.8

Total 3,127,473 100.0 512,914 100.0

This indicates that nearly as many passengers were carried on the Colonial Division during the five summer months as during the remaining seven months of the year. In 1923 the Colonial line carried 46.6 per cent and the Kingston City line carried 53.4 per cent of all revenue passengers. Yet to do so required the operation of 61.8 per cent of the system's total car miles on the Colonial line and to carry a greater percentage of passengers only required the operation on the Kingston City line of 38.2 per cent of the system's total car miles.

Operating Expenses.

The operating expenses for the past four years were:

Operating Expenses:

1920 1921 1922 1923

Way and Structures \$12,337 \$ 6,184 \$ 8,744 \$10,212

Total \$188,096 177,962 179,016 182,430

There was no evidence in this case to indicate that the company is not operating at a reasonable cost. On the contrary, the operating results of comparable electric street railroad companies of the state indicate that the operating expenses here are rather below the average.

For the year 1924 operating expenses will be increased approximately \$3,000 (Record, page 122; evidence G. Burton Te Bow) because of increases in the wages of employees made in July, 1923, which are only partly reflected in the statement of expenses for 1923, because only one-half year

of such increase is there set forth. The evidence indicated that the item of taxes would also be substantially increased in 1924 but no definite figures can be ascertained. It is worthy of note that the table on page 10 shows that taxes have increased approximately 28 per cent since 1920.

Operating Revenues.

The revenue from revenue passengers during the same period was:

The last table shows that there has been a continuing decrease in the number of revenue passengers carried, with a loss in passenger revenue and a decrease in return. The increases in fare during the period have not produced enough revenue to counteract the constant annual loss in revenue passengers. The extensive use of the automobile has obviously had the effect on this railroad which it has had to a greater or less degree on all street railroads in the smaller cities of the state. Such average decrease in revenue passengers has been 200,000 in round numbers per year. For the year 1924 it is reasonable to suppose that the number of revenue passengers will not be greater than 2,925,000.

Estimated Results, 1924.

The following forecast has been made for 1924 based on the present and three different rates of fare. \$3,000 has been added to the 1923 expenses to represent the wage increases of July, 1923, carried through an entire calendar year. No other increases are estimated in expenses. (As to tax expense, see page 11.)

The last table shows that there has been a continuing decrease in the number of revenue passengers carried, with a loss in passenger revenue and a decrease in return. The increases in fare during the period have not produced enough revenue to counteract the constant annual loss in revenue passengers. The extensive use of the automobile has obviously had the effect on this railroad which it has had to a greater or less degree on all street railroads in the smaller cities of the state. The quarterly report to this Commission for the month of January, February and March, 1924, shows that this decrease in number of revenue passengers has continued at an even greater rate than in the past. There were but 659,106 revenue passengers carried in the first quarter of 1924. For the year 1924, therefore it would be unreasonable to suppose that the number of revenue passengers will much exceed 2,800,000.

Estimated Results, 1924.

The following forecast has been made for 1924 based on the present and three different rates of fare. \$3,000 has been added to the 1923 expenses to represent the wage increases of July, 1923, carried through an entire calendar year. The last table shows that there has been a continuing decrease in the number of revenue passengers carried, with a loss in passenger revenue and a decrease in return. The increases in fare during the period have not produced enough revenue to counteract the constant annual loss in revenue passengers. The extensive use of the automobile has obviously had the effect on this railroad which it has had to a greater or less degree on all street railroads in the smaller cities of the state. The quarterly report to this Commission for the month of January, February and March, 1924, shows that this decrease in number of revenue passengers has continued at an even greater rate than in the past. There were but 659,106 revenue passengers carried in the first quarter of 1924. For the year 1924, therefore it would be unreasonable to suppose that the number of revenue passengers will much exceed 2,800,000.

Estimated Results, 1924.

The following forecast has been made for 1924 based on the present and three different rates of fare. \$3,000 has been added to the 1923 expenses to represent the wage increases of July, 1923, carried through an entire calendar year. No other increases are estimated in expenses. (As to tax expense, see page 11.)

The rates demanded by the company, 70 cents cash—8 cents ticket—return of 6.25 per cent and such slight increase will not be likely to further diminish the number of revenue paying passengers to any appreciable extent. This company must, however, practice the utmost economy and should investigate the practicability of one-man safety-car operation on its Kingston City Division as a means of additional future retrenchment.

An order should be made authorizing the Kingston Consolidated Railroad Company to charge and collect from its passengers a maximum cash or ticket fare of eight cents, on not less than three days notice and thereafter until the further order of the Commission.

Latin Make Much of Fair-Haired Beauties

The ability to admire a stunning woman without flying off the handle is a gift of Anglo-Saxon manhood that is greatly appreciated by American beauties after a taste of the embarrassments that await a blond in a Latin country.

Such is the power of fair-haired comeliness over Mediterranean masculinity that a lone woman of Nordic race is likely to be startled and alarmed at being forced to run a distressing gauntlet of undisguised admiration from total strangers.

When a respectable Latin catches sight of a golden-haired charmer he goes utterly mad. He can't take his eyes off her, but is impelled to plowette around her like a Japanese dancing mouse and tell the world how magnificent she is.

A New York woman who returned home recently after a visit to Italy relates that one day when she was "window shopping" she became aware that two men were following her. She was able with some concentration to muster up enough knowledge of Italian to understand snatches of their gesticulating conversation, and found that she was the subject. The short man wobbled alongside of the fat one and signed as he remarked to his companion:

"Such beauty—she is like a white rose."

The fat one rolled his dark eyes and contradicted him.

"But no, see how her cheeks flush—she is like a pink rose."

"She is like an angel," ejaculated Fatty.

These tributes to her beauty were entirely wasted on the fair American. When she heard an officer of the law she wheeled around, pointed the two men out and demanded that they be arrested.

The officer looked at the late, flushed complainant, who made a rav-

ishing picture, and with a how announced to her:

"Signorina, I cannot arrest these men. They should be complimented. They have been guilty of doing nothing but showing excellent judgment and appreciation of beauty."—New York Sun.

Take to English Sports

Without propaganda or special publicity sports which had their origin in Britain were taken across to the continent as a novel experiment, first of all as a curious example of Anglo-Saxon lunacy, says the Montreal Herald. And in a little while the penetrated nations realized that they had caught the infection and that it was chronic.

The Englishman, the missionary of physical endeavor for pure glory's sake, had done a big thing—the accomplishment was complete almost before it was realized. Even Germany had, just before the war, taken it up in quite Prussian fashion, as a desirable state activity.

It is a significant fact today that the nations which we least understand, which are about last to win our sympathy or interest, are countries like Russia and Turkey, which have no national sport in any form and which never look like adopting them.

Old-Time Frumenty

Few people have frumenty offered them as food in these modern days, although there was a time when it was served on tables in many lands and was popular.

It was made by boiling whole wheat hulled in water until it was soft, then draining, adding milk, sweetening and nutmeg flavor, or to make what was known as Somersetshire frumenty, there were added currants, raisins and eggs.

Food specialists would be glad to see it brought back for the dietetic advantage of getting the whole wheat grain for food.—Ohio State Journal.

TODAY WE CELEBRATE

CHARLOTTE HENRIETTA HASER.

Charlotte Henrietta Haser was a celebrated singer born at Leipzig in 1780, the daughter of the director of music in the university there. In 1804 she was engaged to the Italian Opera at Dresden. Her superior voice, her fine execution, and her attempt to combine the advantages of the German and the Italian methods, gave her a brilliant success. Distinguished for the correctness of her morals and her great modesty, she was received with applause at all the most celebrated theatres in Italy and Germany.

She married Vera, a lawyer, at Rome, and retired from the stage.

The first international conference of the Young Men's Christian Association was convened in Paris seventy years ago today, with delegates present from England, Canada, and the United States, and several countries of continental Europe. The Young Men's Christian Association originated in an invitation extended by George Williams, a London dry-goods merchant, to his young men employees to meet in an upper room of his store for a period of Bible study and prayer. This was in 1844, only ten years before the movement so started blossomed into a world congress. The meetings were so successful that larger and better quarters were secured and other

Compare the price with what you get

Look the Oakland Six over searchingly before you choose your new car. See for yourself how much it offers for \$995. If you plan to spend this amount, or more, here are easy tests which will help you to decide wisely.

- 1 Drive an Oakland six. Make its performance your basis for comparison. You be the judge.
- 2 Examine its advanced construction—then you will understand its fine performance.
- 3 Test its four-wheel brakes for yourself. Then you will realize their great importance.
- 4 Examine its remarkable finish. Remember that its lustre is enduring.
- 5 Compare Oakland's Fisher-built bodies with others. Consider beauty, and sturdiness.
- 6 Find, if you can, a top which equals Oakland's permanent top in smartness and utility.
- 7 Observe Oakland's convenient controls on the steering wheel. Others use the dash.
- 8 See Oakland's unique glass enclosures for open cars. Everyone likes them.

Compare the Oakland Six with other cars—even those of higher price. Then you will realize why it pays to know this True Blue car before you buy.

Doings at the High School

It is hard for the students to realize that there are only five more days of school before the regents' examinations. Those who can realize it are already beginning to brush up on the last little things and are practically ready for the annual battle with the regents.

A schedule of examinations will be published later.

Last week Judge G. D. B. Hasbrouck addressed the student body. His topic was Memorial Day.

Thursday afternoon Evan Hummel, who took first place in the pole vault at the Poughkeepsie meet, went to Ithaca, where he will compete for state honors today.

The K. H. S. Maroon of 1924 has arrived at the high school and will be on sale Monday. This year's class, like every other, has tried to make the Maroon a little better, and in the opinion of the Maroon staff, they have succeeded.

This afternoon the baseball team played the game which will decide how much of a chance it has for the DUSO League championship.

THINGS UNUSUAL

By T. T. MAXEY

THE WORLD'S LARGEST BUILDING

That sounds big and it is big. America, today, grows and moves with such rapid strides—progress being the order of the day—that the largest of anything of its particular kind does not so remain very long. In 1922, the General Motors building in Detroit was the largest building in the world. In 1923 the honor was transferred to Chicago.

The so-called Furniture Mart, that substantial-looking structure which rises on the shore of Lake Michigan north of the mouth of the Chicago river, has the distinction of being the largest building in the world.

This building is sixteen stories tall and covers an entire block of ground, 240 feet one way and 467 feet the other way. The combined area of its 16 floors makes the astounding total of 1,250,000 feet, or upward of 23 acres, while the cubical capacity of this monstrous project amounts to the unbelievable total of 20,000,000 cubic feet. Think of it!

Then get this! Three trainloads or 6,800 piling were used for foundation purposes. Three million feet of lumber were used in connection with the concrete work. Other materials of construction included such items as 80,000 barrels of cement; 40,000 cubic yards or wagonloads of gravel; 4,500,000 common brick and 700,000 face brick; 5,500 tons of reinforced steel; miles and miles of piping for water and heating purposes and miles and miles of wiring for electric lighting and other purposes, and 400,000 square yards of plastering.

The exterior finish of this colossal building is of the so-called Gothic treatment, the material being dark-gray brick with terra cotta trimmings. The top story contains a restaurant which seats 750 diners at one time.

The bulk weight of the building is estimated to be 325,000,000 pounds. The estimated cost of the ground and building was placed at \$10,000,000.

The Furniture Mart is an addition extraordinary to Chicago's many remarkable buildings and its wonderful business enterprise.

Spider Catches Fish

Some spiders have been known to kill birds, and most of them can catch flies easily, but in South Africa there is a fish-eating spider that captures fish that are as much as four times its size and weight. The spider is known as the Thalassidroma, and it is found near Natal. It measures about three inches across the legs.

NERVOUSNESS—

"The American Disease"

Health Talk

By Froude & MacKinnon, D's.C.

So common is the complaint of Neurasthenia, or Nervousness, that text books call it "The American Disease." It is generally assumed that the speed and mental strain of life in this continent is responsible.

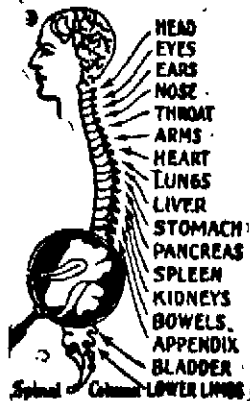

Irritability, headaches and sleeplessness are common symptoms. There is weakness and dizziness and occasionally palpitation of the heart. The common remedy, outside of Chiropractic, is a long rest—anywhere from two months to two years.

The Chiropractor, however, finds the cause in an incoordination of the cranial nerves due to spinal pressure. Rest is good, but a straight spine is essential. Our chiropractic health method, by removing the cause, corrects the condition.

J. L. MacKinnon, D. C.

HEALTH FOLLOWS

"After being ill for several years, having tried many kinds of medicine, I became greatly discouraged over my condition. Upon the advice of a cousin, I was persuaded to try Chiropractic. After several months of Chiropractic adjustments, my nerves are quite normal again, and I feel as good as I ever felt in my life. I am indeed grateful for what Chiropractic has done for me."

AN ELECTRIC SHOWER TO BE TENDERED THE JUNE BRIDE

It Will Ward Off Thunderstorms After Marriage—
Suggestions For a Group Gift.

"Linen Showers" are of course the orthodox thing for the June bride—and bright colored runners for the supper table—delightful linens with soft chintz patterns applied for the afternoon tea table, may accompany the electric devices very suitably. But any bride who gets an electric shower may find that a waffle and a perfect cup of coffee, made at the table, with deft composure and no "jumping up and down from the table" is a perfect antidote for early morning blues. No man's mind can fall to brighten or his spirit fail to soar when fragrance and gentle stimulation come from the golden cup, and crisp waffles and cinnamon and sugar and butter accompany it.

This is just one "idyll" that may emerge from our modern shiny cooking utensils. Aladdin lamps of domestic bliss they are. Rub a tea kettle and get a contented husband or pleased running mate of either sex. Not only men are made genial and gentle by being fed properly. Women would have much better temper and nerves if they would "take a cup of tea and a chaise longue" when things get mixed, instead of keeping on pulling at the tangled skein of life and tightening the knots. (We speak with authority on this, because we always keep on pulling.)

Tea, made fresh on the tea table and iced, served with caviar sandwiches on a dull, rainy Sunday afternoon (or possibly hot toast sandwiches of strawberry jam), a cup of

boillon with a cheese cracker when your mate comes in tired, nervous and cross, or out of the rain. Try it just as a soother, instead of sitting down to dinner, fatigued, and in no state to digest your food.

A perfect rabbit or lobster Newburgh at the table after the theater in the new double boiler grill; your coffee made in the companionable glass filter with its alcohol lamp. (N. B.—Don't try to thicken the sauce with flour; thicken the cream with egg yolk, and don't let it boil; no raw taste then, no long cooking.) All these possibilities and many more assure rainbow colors for the bride in this kind of a shower.

Details That Make the Dream Come True.

What of the grill, that with a turn of the fingers gives you three heats as desired; cups to poach eggs or bake a muffin; a trivet to toast bacon to a turn (if you only know enough to use the reflector wisely above and below the heating element); macaroni, creamed and well browned; creamed chicken or mushrooms, or any vegetable, except possibly a fat artichoke that will not fit the pan. All for the price of a tea cloth and napkins.

For the same price, a waffle iron making four waffles with neatness and dispatch but no smoke; a toaster for half the price, that turns its own toast when you lower the side by the cool little knob; the electric immersion heater, that comforting little device that heats a cup of water for you in a few minutes when you immerse it in the glass; the glass coffee pot that sits right down flat on an electric plate with poise and confidence and makes the perfect cup of

TWO RECIPES FOR STRAWBERRY PRESERVES, VIRGINIA STYLE

Dissolve four cups of sugar in a scant pint of strained strawberry juice (use the small inferior berries for this purpose), let boil for five minutes and skim well.

Add a generous quart of the largest and most perfect berries. You can get and simmer very gently until tender, but not mushy. Skim out the berries carefully and pack in hot sterilized jars standing in a pan of boiling water.

Drain the syrup from the fruit in the jars back into the preserving kettle and cook down until quite thick. Pour over the fruit, filling the jars to overflowing, and seal airtight with new rubbers and hot covers.

This is an old Virginia recipe and if directions are carefully followed every jar will keep perfectly. The preserve is so rich that it should be served in small quantities. It is a delicious sauce for a vanilla mousse or for plain vanilla ice cream.

Strawberry and Pineapple Preserve.

Take six quarts of strawberries, one quart of shredded pineapple, four cups of water and eleven pounds of sugar. Cook the pineapple in the water about twenty minutes, add the heated sugar, and when boiling, the hulled washed berries.

Cook twenty minutes and seal airtight in sterilized jars.

Bananas In New Guise Appear In Both Salads and Desserts

This Mellow, Healthful Fruit is Plentiful in Spite of Tuneful Protestations to the Contrary.

Although the melody boys of Tin Pan Alley would not have it so, the supply of bananas has not noticeably fallen off within the last year. One has but to walk through any market district to find the tiresome banana song refuted on every side.

As a summer dessert bananas are unsurpassable, and no fruit salad is complete without them. A favorite salad and one that can be whipped together at a moment's notice is made of diced bananas, boiled dressing and tiny peanuts freshly shelled. Mixed well and served on crisp leaves of lettuce this forms an excellent piece de resistance for a luncheon.

Banana Bread Pudding

1/2 small loaf bread
1 1/2 tablespoons butter
4 bananas
2 1/2 cups milk
3/4 cupful sugar
Juice of 1 lemon
2 eggs.

In a buttered baking dish place alternate layers of buttered bread and sliced bananas sprinkled with

lemon juice. Beat the eggs well, add the sugar and milk. Pour over the bread and bananas. Bake in a 350 degree oven one hour or till set. One cupful of tart jelly may be used in place of the lemon-juice and the sugar.

Banana Whip

6 ripe bananas
2 tablespoonsful lemon juice
2 tablespoonsful sugar
1/2 cupful chopped walnut meats
whipped cream.

Press the bananas through a puree sieve. Add the lemon juice, sugar and walnut meats. Chopped finely. Chill thoroughly and serve in sherbert glasses, garnished with whipped cream. To vary the flavor, add one teaspoonful of finely-chopped mint to the banana pulp before chilling.

Baked Bananas With Nuts.

Bake bananas in the skin until they split open. Remove carefully; dust over with powdered sugar and cinnamon, and a little pineapple juice (lemon, if you want it, instead) and over them a few chopped nuts. Serve with crisp jumbles. Bananas may be baked out of the

skins, if preferred, and varied in many ways—a little Maraschino juice, or pungent ginger syrup, a few crumbled macaroons, instead of nuts or a little grape-fruit marmalade and a meringue spread on top and put back into the oven just to be browned.

Banana Ginger Cream

The banana ginger cream is one of the easiest and simplest of frozen desserts, and requires no cooking or turning of the freezer.

Press through the ricer two peeled bananas (use three if very small) half a pint of chilled double cream whipped solid and four tablespoons of minced preserved ginger, with two tablespoons of the syrup. Flavor with a few drops of lemon juice, beat well and turn into a mold with a watertight cover. Bury in ice and rock salt for three hours.

Bananas With Raisin Sauce.

3 large bananas
1 tablespoon margarin
1 tablespoon strained honey
2 tablespoons small seedless raisins
1 tablespoonful shredded cocoanut
1 tablespoonful lemon juice
1/2 cupful hot water
1 tablespoonful cornstarch
1/4 teaspoonful salt

Select firm bananas, cut each in four parts lengthwise, placing in pan with the melted margarin. Place raisins in the water, let simmer until soft, add the honey and lemon juice, thicken with cornstarch mixed with a little water and add salt. When creamy, pour over the bananas, set in a 350 degree F. oven for half an hour to get flavored through. Serve with cocoanut sprinkled over top. This recipe serves four people.

Drying of films used to be one of the great problems of moving picture producers. The hundreds of feet of thrillers and love stories could not be hung up to dry like ordinary "still life" camera film. Also, if a speck of dust adhered to the damp film it might, quite possibly, ruin the hero's facial expression just at the point where, after numberless difficulties, he had won the hand of the lady of his choice. Now, by using giant fans, film drying is a routine detail. These fans blow washed, warmed air down the centers of frame-work cylinders around which the films have been wound and the drying is accomplished quickly and easily.

The electric central stations of the United States are at present spending over \$600,000,000 in order to facilitate service to their customers.

WASTED WATTS

Economy in Lighting Is a Matter of Habit.

The old saying, "A woman with a teaspoon can throw more out of the back door than a man can bring in the front with a shovel," holds true in the economy of electricity for lighting as in everything else. Electric light has such a peculiarly gratifying effect upon most of us, that it tends to make us careless of its cost. This is especially true of those who are using it for the first time and undoubtedly can be traced to its ready availability and our instinctive desire for light. Throughout the ages man has sought to evade darkness, consequently when light is so readily obtainable, we are apt to use it in many places when it is quite unnecessary—or again, where fewer lights would be better.

Switching off lights is really unnatural to us and we have some difficulty overcoming our natural tendency to "let it burn." This, however, we must overcome if we are to practice economy.

Remember to "Put Out the Light." We must remember that electricity came in answer to man's demand for better and cheaper light, and the fact that he is utilizing it everywhere in his own world proves that it has satisfied both these needs. But electric lights in industry is always used intelligently and for that reason it proves economical. For instance, many an employer finds that small signs reading "put out the light" hung near doors, catch the eye and save him in the course of a year many dollars on his monthly electric bill. Although the wording frankly disregards good English usage the signs are very effective, and the housewife would do well to take her cue from this and figuratively hang up warnings all over her

house for herself and family. Always we must use electricity intelligently if we wish to derive all the benefits it has within its power to bestow.

Learn to Read the Meter.

A housewife who is serious in her desire to economize in the use of electricity for lighting and its many other uses about the home should by all means learn to read the meter, and study and time her appliances in the accomplishment of their tasks. Only such close attention will bring about efficiency and definite economy. Remember that savings thus made will go a long way toward the purchase of other helpful electrical household appliances which will reduce your housework.

Economy Hints.

Extinguish lamps when they are not needed. Light burning in rooms which are not being used is the grossest form of waste. This is particularly true of the cellar, pantry, bathroom, kitchen and often the dining room. There are any number of women who leave the dining room lights burning the entire time dishwashing is being done. This is wasteful, for one can easily clear the table and put the room in order and extinguish the light before commencing the dishes. If, for any reason, you are obliged to return to the dining room, the light can be easily switched on. For that reason it is wise to have the switch near the pantry or kitchen entrance. The following table will help the reader to visualize the actual waste of keeping the lamps of different wattage burning unnecessarily for an hour. Although the amount may seem infinitesimal, it must be remembered that great fortunes have been accumulated on just this principle. The figures given

DIPLOMAT FROM EGYPT ADMIRES YANKEE WOMEN

Not Surpassed Anywhere, He Says, but in His Heart He Is Lover of Open.

Washington.—A man from the desert has forsaken the great barren spaces for the whirl of Washington social and diplomatic life.

But for A. M. Hassanein Bey, first secretary of the Egyptian legation, the moonlight nights, sandstorms and hardships of the desert are more attractive than the elaborate ballrooms and colorful receptions which are inseparable adjuncts to diplomatic life in America.

Hassanein Bey is one of Egypt's favorite sons. While only in his thirty-fourth year, he has won distinction as a soldier, athlete, adventurer, scholar and horseman. He is a true Egyptian and his love for the desert and for his people is profound.

If you were to meet Hassanein you would see a young man of medium height, slender and wiry of body. A neat black mustache, a pair of piercing jet eyes and a head of neatly groomed, coal-black hair give him lean, olive-complexioned face the stamp of oriental romance.

His four years at Oxford university are reflected in his speech. His English is as nearly perfect as his native language. He is now writing a book in the English language of his adventures in trekking across more than 5,000 miles of desert waste.

Hassanein is the best swordsman in Egypt. Each day you may find him practicing with his instructor at the Racquet club, preparing himself for competition in the Olympic games. Aside from this, his skill with his hands, keen sight and speed make him a feared opponent with boxing gloves. He is fond of boxing and played hockey while in England.

He loves horses—but best of all his Baraka, a chestnut horse, which he considers the best in his native land for desert travel.

Most of all he loves adventure. "It's more or less inherent in every one of us."

"I am favorably impressed with America and her people," he said. "I admire American women. They are very energetic and seem much interested in community work. I don't think they are surpassed anywhere."

Discoverer of the First Vitamine Ever Crystallized

Dr. Walter H. Eddy, who discovered the first vitamine that has ever been crystallized as an individual compound. Asked if this means capsule food, he said, "I hope not, for it will take the joy out of life." Vitamines were never seen, but their absence was known to be the cause of scurvy, beri-beri and many other pernicious diseases.

Hunter Kills Cougar With Rabbit Shooter

Portland, Ore.—Edgar E. Watkins, government hunter of Grant county, killed one cougar with an automatic 22-caliber pistol and wounded another.

Watkins was out hunting rabbits to use as coyote trap bait when he came face to face with two cougars. He was about thirty feet from them when they came in sight. Watkins had carried a rifle many a day expecting to meet a cougar. But in the history of the biological survey hunters in Oregon, dating back a decade, none had ever killed a cougar in the eastern part of the state.

So Watkins didn't have his rifle. His automatic pistol was his only weapon. Knowing full well that a 22-caliber bullet is not expected to make a showing against a big cat, and realizing that the animals if wounded might turn on him, Watkins nevertheless opened fire.

Fortunately for him neither attempted to attack him. Instead they tried to flee.

As the smaller one, a yearling, turned, Watkins dropped him. At the older beast, apparently the mother, Watkins sent four shots which, blood stains in the snow told, took effect.

Salt on Roads

The bureau of public roads says that common table salt—sodium chloride—is used on gravel roads to absorb the night moisture in order to keep the roads packed and flat so that they will not become so dusty during the day.

IF WINTER COMES

The WILLIAM FOX SCREEN VERSION OF A.S.M. HUTCHINSON'S FAMOUS NOVEL

"IF WINTER COMES"

Watching the late unfold in like reading the book with being illustrations on the case opposite. You read of what took place and then see it happen. If some one were to tell us this and then say that the result was most effective, intensely dramatic and beautiful we would say that such a thing was impossible.

But this "impossible" has been achieved. When Mark Selby and Nina Foch are finally united and the spectators realize that the picture is over they looked about as if it were strange that they were in the theatre and it was time to leave.

Y. W. C. A. Has Birthday Party

The open house at the Y. W. C. A. Friday evening was actually the first anniversary to the day of the first party ever given the Kingston girls by the Young Women's Christian Association, and being a birthday event was duly celebrated. All of the rooms at the headquarters were prettily decorated with June flowers and evergreens. In the front of the building there were two interesting exhibits of work done in the Y classes the past year; one of basketry, the other of millinery. Both were exceptionally worth while.

During the first part of the evening there was a program given in the gym, Miss Los Kamp having kindly arranged to be present and conduct the singing of the Schubert Choral Club. Mrs. G. P. Rice, president of the association, greeted the large audience in the name of the Y. W. C. A. and thanked them for being present on the birthday event. The program which was enthusiastically encored throughout was as follows:
The Heart of Her..... Cadman
Heaven, Heaven..... Burleigh
The Schubert Choral Club, accompanied by Miss Snow
Dance—The Mechanical Doll
Encore—(Repeated)
Reading—The Going of the White Swan..... Parker
Miss Georgianna Clafflin
Encore—(Only a Postage Stamp)
The Awakening, A Cycle of Song..... Mabel Daniels
Schubert Choral Club, with incidental

solo by Mrs. Rich and duet by Mrs. Rich and Miss Messinger
Piano Solo—Solel a Mid..... Jongen
Miss Ruth Dana
Encore—(Hunting Song)
(a) Little Mother of Mine
(b) Two Clocks
(c) The Great Awakening
Schubert Choral Club

Following the program Miss Estey read a telegram just received from Miss Capen of New York extending birthday congratulations and expressing her regret that she could not be present, which was heartily cheered by all of the girls.
At the close of the program there was general dancing and during the evening fruit punch and cake were served.

President Vetoes Postal Pay Bill

By Telegraph to The Freeman.
Washington, June 7.—President Coolidge today vetoed the postal pay bill providing increases in the salaries of all postal employees.
The president has written a lengthy message to congress, explaining the veto.
The fact that the legislation would have added \$75,000,000 a year to the expenses of the post office department caused Mr. Coolidge to refuse to approve it.

Seek Mandamus Against State

Board of Supervisors Seeks to Compel Approval of Apportionment of Highway Monies—Decision Reserved.

At the special term of supreme court this morning County Attorney John W. Eckert made application for a peremptory mandamus against the state superintendent of public works and bureau of highways to compel them to approve the action taken by the Ulster county board of supervisors on April 28, in apportioning the highway monies to the various towns.

At that time the towns of Saugerties, Rochester and Olive were not included. The reason given then by the state for not approving was that the supervisors' action seemed to be based on the fact that these towns had elected Democratic supervisors. Mr. McManus, of the attorney general's office, appeared for the state. At the conclusion of the arguments the papers were submitted to Judge Hasbrouck and decision was reserved.

Marking Time on Vice-Presidency

Lowden and Borah Unwilling To Be Named—Coolidge Refuses To Endorse Anybody—Convention Will Decide.

By Telegraph to The Freeman.
Cleveland, O., June 7.—From the obscurity of other years, the vice-presidency on the Republican ticket has overnight assumed a position of first rate importance in the Cleveland convention and bids fair today to provide the principal spots of color and political drama in an otherwise quiet ratification meeting for Calvin Coolidge.

Unless the leaders can get together between now and next Thursday and agree upon a candidate, as Harding was agreed upon at Chicago four years ago, it seemed certain today that the convention will witness, after all, some spirited balloting and perhaps a little real fight.

Great pressure is being brought to bear both upon Frank O. Lowden of Illinois, and Senator William E. Borah of Idaho, to permit their names to go before the convention. Both have stated, publicly and privately, that they do not want the nomination and have urged upon their friends on the ground to put a quiet stop to their "booms." Their friends, however, have refused to abide by the instructions and on the contrary have only redoubled efforts on their behalf.

In the background of this undercurrent contest between the friends of Lowden and Borah looms the inevitable dark horse, and compromise. Only one thing is there general agreement. That is that the nominee must come from west of the Allegheny Mountains.

The friends of General Charles G. Dawes are persistently promoting his candidacy. His is the only candidacy in whose favor placards and literature have made their appearance in the flag-draped streets of Cleveland.

Against his candidacy, it is pointed out that the general's advocacy of the "open shop" has made him unacceptable to labor, while his banking connections and great wealth have made him particularly appealing to these same middlewestern agriculturists which the politicians are most anxious to please.

Other "booms" were in the making today on every street corner and in every hotel lobby.

CURRENT OFFERINGS AT THE THEATERS

Vaudeville will be staged at the Opera House this evening. The feature picture in conjunction with the vaudeville bill is "A Dangerous Adventure."

Buster Keaton is now showing at the Kenney Theater in the feature picture, "Our Hospitality." The story concerns the trouble of the last of the McKays, when he returns to his home in Kentucky and falls in love with the daughter of the much despised Canfield.

At the Auditorium tonight, "Riders Up," with an all star cast, including Creighton Hale and Ethel Shannon. A screen version of the story "When Johnny Comes Marching Home" by Gerald Beaumont, dealing with the racetrack adventures of his famous character, "The Information Kid."

68th Congress Ready to Adjourn

By Telegraph to The Freeman.
Washington, June 7.—Thrown out of its beaten pathway by a Democratic insurgent coalition, the sixty-eighth congress (aced adjournment of its first session tonight with a record to provide the dominating issues of the coming presidential campaign.

Clashes with President Coolidge, sensational disclosures of alleged corruption in public office and the repeated defeat of the administration on fiscal policies, featured a session replete with turbulent debate, factional strife and scandal.

Give Roosevelt Avenue to City

Roosevelt avenue, which runs from Albany avenue to Kierstedt avenue, is being graded and the work will be completed next week. Concrete curbing and a five foot sidewalk will be laid and on completion of the work the street will be deeded over to the city. Two silver maple trees have been set out on each of the 150 lots fronting on Roosevelt avenue, Jefferson avenue and Wilson avenue.

The work of grading Jefferson avenue and Jefferson Place will be taken up as soon as the grading of Roosevelt avenue is finished. The Kingston Landscape Company have been engaged in setting out ornamental trees and shrubbery on Roosevelt avenue and in other sections of Roosevelt Park. Three houses are in course of erection along Roosevelt avenue and plans are out for several more.

Financial and Commercial

By Telegraph to The Freeman.
New York, June 7.—Price movements were irregular at the opening of the stock market today. Oil shares were again subjected to pressure, with fractional advances and declines in other parts of the list were about evenly divided.

The same confusing tendencies which prevailed practically all week were evident in the abbreviated session on the stock exchange. No attempt was made to capitalize the good feeling engendered by the adjournment of congress scheduled for today which appeared to show that the perplexing business situation still out-weighted all other considerations.

The reaction in the industrials was furthered in the early dealings with the so-called commodity stocks bearing the brunt of the attack.

The final tone was steady.

Sheridan Caseys Here Tomorrow

The Colonials will attempt to get their second winning streak of the season under way Sunday afternoon at the Fair Grounds. The Sheridan Caseys of Brooklyn will at the same time try to add to their prestige in the Metropolitan district by taking the Schirckmen into camp.

Manager Schirck has his two aces, Culliton and Jack Morgan, ready and rarin' to go and it will take a real ball club to take the game from the locals with either of these boys on the mound. Bud has met defeat but once this year and that was in his first start. Morgan has four scalps at his belt thus far this season and has yet to taste defeat. Included in his victories are a shutout against the D. & H. Generals, the Decoration Day win over the Silk Sox and an artistic beating handed to Chapple Johnson.

Opposing the Colonial batsmen will be the Wood or McGuire. Woods has been having a successful season. Hemmingway is the relief hurler of Manager Hogan's staff. Woods was with the Farmers last season and helped materially in building up the fine record that team made for the year.

The Colonial infield will be strengthened by the change Manager Schirck has made. Deegan is quite at home at short and Nelse Dewey has found himself upon getting back in his old position at second. Nelse worked well in Thursday's game and helped himself to two hits besides handling six chances in clever style. John "Porky" Flynn will be at third and Coyle will return to the station where he shines as no one else can.

TAGGING ALL THE BASES IN THE MAJOR LEAGUES

The Yankees went back into a clear lead in the pennant race when they trimmed the White Sox 5 to 3 while the Red Sox were losing to the Browns. Ruth knocked out his fourteenth homer.

Walter Johnson may be going back but he chalked up his 104th shut out when the Tigers were beaten by the Senators 2 to 0.

The fight for the cellar is being waged furiously. The Athletics again pumpe the Indians to the bottom with a 11 to 7 victory.

A brave rally in the eighth aided in defeating the Reds 4 to 3.

Socking Ferguson for five runs in the first, the Browns turned in an easy victory over the Red Sox 11 to 4 and knocked Boston into second place.

The Phillies nosed out the Cards 7 to 6 in a game enlivened by a set-to between Mueller and Sand. The combatants were separated by their team mates.

BATTERY A AND ST. PETER'S CLASH SUNDAY.

Hasbrouck Park will be the scene of a baseball duel Sunday morning when the Battery A baseball team clashes with the fast stepping St. Peter's nine. St. Peter's will likely start S. Connelly in the box with J. Bruck on the receiving end. The soldiers have the choice of starting either E. Delavan or J. Bush on the mound with L. Freer behind the rubber. This is the first time that these two teams have crossed bats and they are both confident in taking away the honors. The game is scheduled to start at 10:30 o'clock.
